

T.C.
MUĞLA SITKI KOÇMAN UNIVERSITY RECTORATE

MSKÜ Graduate School of Natural and Applied Sciences will accept applications of **Foreign Graduate Students** to the following Graduate Programs for **2023-2024 Fall Semester**.

GENERAL REQUIREMENTS FOR THE APPLICANTS

- 1) In order to have a graduate education within the scope of Mugla Sitki Kocman University, International Students Application, Acceptance and Registration Terms and Conditions, the candidates should have the status of international student.
- 2) International applicants of the graduate programs must also satisfy the general regulations of the Higher Education Council (YÖK) of Turkey.
- 3) International students are allowed to apply only to a single graduate program listed in the announcement.
- 4) The application for Master of Science Programs requires a Bachelor of Science degree and those applying for the Ph.D. programs must hold a M. Sc. degree.
- 5) The applicants are required to have a sufficient level of language proficiency that enables them to follow the educational programs provided in a foreign language (English) or Turkish language.
 - a) International students who apply for the graduate programs with education given in Turkish language must have at least the B2-level Turkish language proficiency from the Turkish Teaching Centers (TÖMER).
 - b) In case of not having this certificate, the applicants must earn at least **60** points from the Turkish Language Placement Test administered by the School of Foreign Languages at the beginning of the semester.
 - c) The applicants with a University degree from one of the Universities in Turkey with education given in Turkish language are exempted from the Turkish Language Placement Test when they provide an official proof.
 - d) For the graduate programs with education given in English language, the applicants must have at least **65** points from the language exam of YDS or YÖKDİL, an equivalent score from the English Language Exams accepted by ÖSYM, or a score of at least **65** points out of **100** must be satisfied from the English Language Placement Test administered by the School of Foreign Languages at the beginning of the semester only for students accepted to the master of science graduate programs.
 - e) The condition for proficiency is not required for the applicants, whose first/official language is the same with the related graduate program language and, who have had the education in the related program language in domestic/overseas countries.
 - f) Applicants accepted to the graduate programs with education in English language must provide the language proficiency certificates to the Graduate School within the indicated time intervals.
 - g) International students accepted to the graduate programs without any satisfactory language proficiency (Turkish or English) are required to provide the acceptable language certificates within two semesters.
- 6) Except for the graduate programs requiring higher foreign language score, candidates who apply to the Ph.D programs with education in Turkish language must also have a score of at least **55** points from the English language exam of YDS or YÖKDİL or equivalent score obtained from the foreign language exams recognized by the ÖSYM.
- 7) The evaluation of the international student applications is carried out by the provided application documents that uploaded electronically to The Graduate School Online Application System. In the evaluation process, the decisions will be made according to the overall grade point average (GPA), the language placement test scores, the letter of intent, and reference letters provided by the applicants.
- 8) In case necessary, the related graduate program evaluation committee might require an electronic online interview with the applicants by using online communication applications. These online interviews with the applicants are recorded and used in the final evaluation processes.
- 9) For the international students who has accepted an official scholarship from the Higher Education Council of Turkey (YÖK) through an international agreement between Turkey and his/her own Country are exempted from the international application process, their applications will be evaluated separately through the approval of the President of the University.
- 10) Based on the article 35-6 of the Postgraduate Education and Training Regulation published in the T.R. Legal Gazette of the Higher Education Council dated April 20, 2016, and numbered 29690, the applicants cannot register and maintain for more than one graduate program at the same time except for non-thesis master's programs.

- 11) Applications for the international students to the graduate programs of the Graduate School of Natural and Applied Sciences will be evaluated on the dates specified in the Academic Calendar by the departments, and the applications will be finalised by the decisions of the Departmental Board and the Executive Committee of the Graduate School.

APPLICATION CONDITIONS AND DATES

- 1) 2023-2024 Academic Year Fall Semester International Student Pre-Registration Applications will be made between 28 August – 08 September 2023 from the Online Application link on the announcement page. In case of missing documents uploaded to the system, applications will not be accepted.
- 2) Pre-Registration Application Documents will be uploaded from the Online Application address.
- 3) Candidates who cannot submit the originals or approved copies of the documents in the final registrations will lose their registration rights.
- 4) The list of accepted candidates will be published on the Institute's website on September 15, 2023.
- 5) Candidates can apply to a maximum of 1 program within the announced quotas.
- 6) For questions and consultation regarding the application, an e-mail can be sent to ensfen@mu.edu.tr.

REQUIRED APPLICATION DOCUMENTS

- a) An official certified copy of B.Sc. and/or M.Sc. diploma translated into Turkish language or to English language approved by the branches of Consulate General of Turkey or from the office of Notary Public. For Countries member of the Apostile Agreement, an Apostile seal is required on the certified translated copies of the diplomas. For students who are in the last semester of their education, an official education letter indicating the dates of graduation from their University must be provided.
- b) An official certified copy of the transcripts of B.Sc. and/or M.Sc. education translated into Turkish language or to English language approved by the branches of Consulate General of Turkey or from the office of Notary Public. For Countries member of the Apostile Agreement, an Apostile seal is required on the certified translated copies of the transcripts.
- c) The copy of Identity Card (a copy of Passport pages showing your identity information)
- d) One Passport Picture
- e) Reference Letters from the academic professors of the applicant (at least one),
- f) Curriculum Vitae (CV) of the applicant
- g) If available, a Language Proficiency Score must be provided.
- h) If available, 'Diploma Equivalency Certificate' showing the diplomas earned in other countries is recognized by the Higher Education Council of Turkey (YÖK).
- i) If there is a requirement in the Special Conditions, Applicants have to submit a letter of intent explaining the interested research field.
- j) **Incomplete applications will not be evaluated.**

Major	FOREIGN STUDENTS		EXPLANATIONS AND SPECIAL CONDITIONS	
	M.Sc. (with Thesis)	Ph.D.		
Biology	8	1	M.Sc. Candidates must have undergraduate degree from in Biology and Molecular Biology and Genetics.	Ph.D. Candidates: should have Master Degree from Biology and Molecular Biology and Genetics.
Enviromental Sciences	7	-	M.Sc. Candidates must have undergraduate degree from The Faculty of Engineering, Faculty of Science, Faculty of Fisheries, Faculty of Technology, Fakulty of Architecture, Faculty of Agriculture or The Numerical Departments as Engineering, Physics, Chemistry, Biology, Science Education, Environmental Sciences, Food, or Natural Sciences related etc.	
Electrical-Electronics Engineering (English)	2	1	M.Sc. Candidates: should have Bachelor Degree from Electrical-Electronics Engineering, Electrical Engineering Control and Automation Engineering Electronics and Communications Engineering, Biomedical Engineering Computer Engineering Mechatronic Engineering Energy Systems Engineering Software Engineering	Ph.D. Candidates: should have Master Degree from Electrical-Electronics Engineering, Electrical Engineering Control and Automation Engineering Electronics and Communications Engineering, Biomedical Engineering Computer Engineering Mechatronic Engineering Energy Systems Engineering Software Engineering

<p>Digital Game Design and Technologies (30% English)</p>	<p>3</p>	<p>-</p>	<p>M.Sc. Candidates: should have Bachelor Degree from Digital Game Design, Software Engineering and Computer Engineering departments took the "Introduction to Programming" and "Object-Oriented Programming" courses directly from the graduates of other Sciences, Social Sciences and Educational Sciences without any Scientific Preparation and passed with a minimum letter grade of C. Students who certify will be accepted directly without taking Scientific Preparation, and students who cannot document will be accepted by taking Scientific Preparation. According to Muğla Sıtkı Koçman University Graduate Education Regulations, all candidates must get at least 55 points from ALES. Since 30% of the Digital Game Design and Technologies Graduate Program will be conducted in English, the candidates must score at least 60 points from the ÖSYM Foreign Language Proficiency Exam (YDS) or national and international foreign language exams accepted by the Interuniversity Board in order to start education. They must have at least an equivalent score or a minimum score of 60 from the Muğla Sıtkı Koçman University Language Exam. The student is required to submit a letter of intent, applications without a letter of intent will be deemed invalid. Except for the acceptance conditions stated here, the relevant provisions of Muğla Sıtkı Koçman University Graduate Education Regulations are taken as basis.</p>		
<p>Energy</p>	<p>3</p>		<p>M.Sc. Candidates should have Bachelor Degree from Faculty of Science or Engineering Faculty.</p>		
<p>Civil Engineering (English)</p>	<p>13</p>	<p>6</p>	<table border="1"> <tr> <td data-bbox="904 745 1444 1038"> <p>M.Sc. Candidates: should have Bachelor Degree from Civil Engineering Program.
